**Course Overview:**

This course will provide an overview of the fundamentals of financial management. Topics that will be covered include: Financial statements, markets, and assets, as well as financial analysis and capital structure. We will stress, throughout this course, the practical application of these topics to real-life business issues. The course syllabus is a general plan for the course; deviations announced to the class by the instructor may be necessary.

**Textbook & Calculator:**

Fundamentals of Financial Management (Concise 4<sup>th</sup> ed.) by Brigham and Houston, Thomson.

You will need a financial calculator.

**Grading:**

There will be three exams during the semester which will account for 90% of the final grade. Attendance/class participation will account for 10%. If you decide to take the final (optional), it will count 25% and the three tests plus attendance/class participation will count 75%.

**Assignments:**

Each student is expected to have read the assigned material and to have done the homework problems or other assignments for each class.

**Attendance:**

Please make every effort to attend all classes. You are responsible for what is covered in class whether you are present or not and part of your grade depends on attendance.

**Academic Honesty:**

All students are expected to adhere to the University of Georgia honor code. Cheating will not be tolerated, and will be handled according to University policy. Students are responsible for informing themselves about those standards before performing any academic work. More information can be found at:
